## The Weekly Update

### A Biblical Worldview matters....

“I believe a Biblical Worldview is important because our public education system has spent a considerable amount of time adjusting to cultural acceptance instead of a Biblical framework. The Biblical worldview curriculum takes Biblical truths and lays the foundation for knowledge, awareness, and spiritual growth.

A Biblical worldview is a lens established to help individuals understand that the truth of the Bible does not change with time. This is in contrast to our culture, which changes as cultural acceptance changes over time.

A Biblical worldview provides insight, hope, and steadfastness to classroom subjects. This, in turn, allows students to develop an understanding that will provide that same insight into His Word, hope of God's restoration, and steadfastness in doing His work in an always-changing culture.”
